Academic Position

Professor of Medicine and Cardiology
Director , Cardiology Department and Israeli Association for Cardiovascular Research
Professor of Medicine and Cardiology, Tel Aviv University
Professor of Cardiology, University of Rochester Medical Center

Brief Summary

Dr. Goldenberg received his medical degree from Tel Aviv University, and has completed his residency in medicine and fellowship in cardiology at Sheba Medical Center (SMC). During his cardiology training at SMC he conducted research on various topics including contrast nephropathy, smoking and sudden death, and indications for HDL raising therapy. In 2004 he joined the Heart Research Follow-up Program at the URM and over 7 years was involved in clinical research that included genotype-specific risk stratification in patients with the congenital long QT syndrome, genetic risk for early onset myocardial infarction, indications for therapy with implantable devices, including the implantable cardioverter defibrillator and cardiac resynchronization therapy, and studies that involve the wearable cardioverter defibrillator.

In August 2011 he returned to Israel and is currently the Director of the Cardiology Department and the Israeli Association for Cardiovascular Trials at Sheba Medical Center.

Dr. Goldenberg is the associate editor of the Inherited Arrhythmia Corner of the Annals of Noninvasive Electrocardiography, and a
