

Saturday, February 27th 2016

14:00-19:30	Registration Hours
19:30-21:00	Get-together Reception

Sunday, February 28th 2016

All Day Registration

8:30-9:20

Opening Ceremony

Greetings

Uri Elkayam, CPP 2016 Congress chairman

8:30-8:50

Awards

Presentation of 2016 Awards for distinguished contributions.
Presented by: Jolien Roos-Hesselink, Jack Colman

8:50-9:20

Opening Lecture

Opening Lecture: Coronary arteries vulnerability and pregnancy: Diagnosis, prognosis and management
Uri Elkayam
University of Southern California, USA

9:20-10:50

Risk Prediction and Maternal Mortality

Chairs: Mark Johnson, Jack Colman

9:20-9:40

Methods for risk predictors of pregnancy in women with heart disease: Advantages and limitations.

Samuel Siu
Western University, Canada

9:40-9:55

Pregnancy risk in older women.

Claire McLintock
Auckland City Hospital, New Zealand

9:55-10:10

Maternal mortality in the US

Afshan Hameed
University of California, USA

10:10-10:25

Cardiac disease as a cause of maternal mortality in Europe.

Petronella G (Els) Pieper
University Medical Center, The Netherlands

10:25-10:35

Maternal deaths due to heart disease in Sri Lanka -Translating lessons learnt into action in resource-poor settings (abstract)

Kapila Jayaratne
Ministry of Health, Sri Lanka

10:35-10:50

Contraception and women with cardiac disease: Which agents for Whom?

Joan Briller
University of Illinois, USA

10:50-11:10

Coffee Break, Poster Viewing and Exhibition Visit

11:10-12:15

Risk Prediction and Maternal Mortality

Chairs: Mark Johnson, Jack Colman

11:10-12:15

Congenital Heart Disease

Chairs: Petronella G (Els) Pieper, Rafael Hirsch

11:10-11:25	Who arrests and why? The epidemiology and survivorship of cardiac arrest in pregnancy Katherine W Arendt Mayo Clinic, Rochester, USA	11:10-11:25	Genetic evaluation and consultation in women with CHD. Eli Gutterman Carmel Medical Center & Clalit Health Services, Israel
11:25-11:40	Pregnancy, obesity and future cardiovascular risk. Marla Mendelson Northwestern Feinberg School of Medicine, USA	11:25-11:35	Cardiac adaptation during pregnancy: comparison between women with congenital heart disease and healthy women (abstract) Monique De Laat University Academic Medical Center, The Netherlands
11:40-11:55	Fertility therapy in women with cardiac disease. Candice Silversides University of Toronto, Canada	11:35-11:50	Effect of repeated pregnancies on cardiac function in women with CHD. Rafael Hirsch Rabin Medical Center, Israel
11:55-12:15	The approach to robust heart disease in pregnancy. Mathew Sermer Mount Sinai Hospital, Canada	11:50-12:00	Successful pregnancy in a patient with congenitally corrected transposition of the great arteries: What is all this mix up about? (abstract) Cassandra Buto-Colletti University of Illinois at Chicago, USA
		12:00-12:15	Pregnancy in patients after Fontan operation Magalie Ladouceur Hôpital Européen Georges Pompidou, France
12:15-13:45	Lunch Break, Poster Viewing and Exhibition Visit		
13:45-14:35	Registries and Guidelines: Status and Results Chairs: Avraham Shotan, Samuel Siu		
13:45-14:05	Registry of pregnancy and Cardiac Disease (ROPAC): Current status Jolien Roos-Hesselink Erasmus Medical Center, The Netherlands		
14:05-14:15	National Transplantation Pregnancy Registry (NTPR): Pregnancy outcomes in female heart transplant recipients (abstract) Lisa Coscia National Transplantation Pregnancy Registry (NTPR), USA		
14:15-14:35	The Euro Obs registry on PPCM - status report Jolien Roos-Hesselink Erasmus Medical Center, The Netherlands		
14:35-17:30	Valvular Heart Disease Chairs: Candice Silversides, Afshan Hameed	14:35-17:30	Case Presentations Chairs: Enrique Ostrzega, Anil Mehra, Radha Sarma
14:35-14:50	Rheumatic valvular disease and Pregnancy Claire McLintock Auckland City Hospital, New Zealand	14:35-14:45	Subsequent pregnancy before recovery with eventual chronic dilated cardiomyopathy James D Fett

			University of Pittsburgh Medical Center, USA
14:50-15:05	Aortic, pulmonic and tricuspid valvular disease-A review Candice Silversides University of Toronto, Canada	14:45-14:55	Obstetric anesthesia considerations in a heart transplant recipient Katherine W Arendt Mayo Clinic, Rochester, USA
15:05-15:15	Rheumatic heart disease in pregnancy: poorer perinatal outcomes (abstract) Sullivan E, on behalf of the AMOSS Investigators University of Technology Sydney, Australia	14:55-15:05	Chemotherapy induced cardiomyopathy after pregnancy as the first manifestation of cardiac toxicity 14 years after treatment for Hodgkin's disease Esther Hink Radboud University Medical Center, The Netherlands
15:15-15:30	Aortic Stenosis: Results of ROPAC Iris Van Hagen, Jolien Roos-Hesselink Erasmus Medical Center, The Netherlands	15:05-15:15	A multidisciplinary approach to the management of severe aortic stenosis in pregnancy Amy Sarma Massachusetts General Hospital, USA
15:30-15:40	Maternal and neonatal complications of women with mitral stenosis in an Israeli tertiary care center(abstract) Rafael Kuperstein Sheba Medical Center, Israel	15:15-15:25	Anticoagulation for mechanical heart valves peripartum: Balancing thrombotic and bleeding risks Rshmi Khurana University of Alberta, Canada
15:40-15:50	Rheumatic heart disease and pregnancy (abstract) Kholoud Arab McGill University Health Care Center, Canada	15:25-15:35	Using an anti-Xa level nomogram to adjust intravenous unfractionated heparin infusion for arrhythmia in pregnancy Winnie Sia University of Alberta, Canada
		15:35-15:50	Discussion
15:50-16:10	Coffee Break, Poster Viewing and Exhibition Visit		
16:10-16:25	Mechanical prosthetic heart valves in pregnancy: Real world experience. Jolien Roos-Hesselink Erasmus Medical Center, The Netherlands	16:10-16:20	A management dilemma: Typical chest pain and elevated cardiac enzymes in active labor Jacqueline Kircher Walter Reed National Military Medical Center, USA
16:25-16:35	Case: Successful pregnancy in a woman with a percutaneously placed melody® pulmonic valve prosthesis Ibrahim Mansour University of Illinois at Chicago Medical Center, USA	16:20-16:30	Peripartum cardiomyopathy presenting as bradycardia Elisabeth Codsí Mayo Clinic, USA
16:35-16:50	Prosthetic Heart valves emergencies in pregnancy Sorel Goland Kaplan Medical Centre, Israel	16:30-16:40	Management of LDS in pregnancy Matthew Cauldwell Chelsea and Westminster Hospital, UK
16:50-17:00	The acute management of Parturients with severe Mitral Stenosis	16:40-17:50	Pulmonary hypertension in a parturient with a history of Graves' disease and cardiac arrest under anesthesia

	Hans Sviggum Mayo Clinic, Rochester, USA			Marissa Mery Baylor College of Medicine, USA	
17:00-17:10	Anticoagulation for pregnant women with mechanical heart valves: A systematic review and meta-analysis (abstract) Rohan D'Souza Mount Sinai Hospital, University of Toronto, Canada		17:50-17:00	Difficult hypertensive state during pregnancy in a GUCH patient with PHACE syndrome and operated aortic coarctation Roberto Bordese Città della Salute e della Scienza, Italy	
17:10:17:20	Emergency cardiac surgery in pregnant and immediate postpartum women (Abstract) Phillips Harrington Emory University, USA		17:00-17:10	Successful treatment with recombinant tissue plasminogen activator of massive pulmonary embolism in the 16th week of pregnancy Daniel Petrov Emergency Hospital Pirogov, Bulgaria	
17:20-17:30	TAVI for intrapartum management of symptomatic critical bioprosthetic aortic stenosis Elaine Gordon McMaster University, Canada		17:10-17:30	Discussion	
17:30-18:00	Cheese and Wine Reception				
18:00-19:30	Rapid Fire Sessions				
Rapid Fire A Moderators: Uri Elkayam, Ofer Havakuk			Rapid Fire B Moderators: Avraham Shotan, Jolien Roos-Hasselink		
1	Coronary Artery Disease	Analysis of pregnancies complicated by ischemic myocardial disease Yzabel Moreira University of Sao Paulo, Brazil	1	Valvular	Pregnancy in women with percutaneous pulmonary valve implantation Magalie Ladouceur Hôpital Européen Georges Pompidou, France
2	Imaging	Changes in cardiac index in normal human pregnancy - A longitudinal CMR study Lene Groenbeck Rigshospitalet, Denmark	2	Labour and delivery	The restrictive use of uterotonics in women with cardiac disease. Is it justified? Matthew Cauldwell Chelsea and Westminster Hospital, UK
3	General	Lessons from mortality due to pregnancy complicated with heart disease: Multi-sector approach in Sri Lanka - 2013 Kapila Jayaratne Ministry of Health, Sri Lanka	3	Vascular Dissections and Aneurysms	The multidisciplinary approach for perinatal and cardiac management in pregnant women with pathology of the aorta Iuliia Davydova National Academy of Medical Sciences of Ukraine, Ukraine
4	Coronary Artery Disease	Incidence of Myocardial Infarction in Pregnancy: A Systematic Review and Meta-analysis Paul Gibson University of Calgary, Canada	4	Pulmonary Hypertension	Maternal and perinatal outcome in pregnancies with severe pulmonary hypertension Carolina Testa Hospital das Clínicas da Faculdade de Medicina da Universidade de São Paulo, Brazil

5	PPCM	Echocardiographic findings before and after peripartum cardiomyopathy in a preeclampsia woman with twin pregnancy Takeshi Umazume Hokkaido University Graduate School of Medicine, Japan	5	Pulmonary Hypertension	Pulmonary arterial hypertension due to congenital heart disease - three high risk pregnancies with successful outcomes Lina Gumbiene Vilnius University Faculty of Medicine, Lithuania
6	PPCM	Hypertension in pregnancy as the most influential risk factors of Peripartum Cardiomyopathy Hawani Sasmaya Prameswari Padjadjaran University, Indonesia	6	Pulmonary Hypertension	Management of severe idiopathic pulmonary arterial hypertension during pregnancy Zhang Jun Beijing Anzhen Hospital Capital Medical University, China
7	General	Anatomical and physiological changes in the venous system of lower limbs in pregnant women and findings associated with the symptomatology Vitória Goulart Universidade Federal de Minas Gerais, Brazil	7	Hypertension	Relationship of systolic and diastolic maternal cardiac function in gestational hypertension with preterm delivery and intrauterine growth restriction Aleksandra Ilic Institute for Cardiovascular Diseases Vojvodina, Serbia
8	Arrhythmias	Unexplained maternal tachycardia during the first 48 hours postpartum Anna Roberts St Mary's Hospital, Central Manchester Foundation Trust, UK	8	Hypertension	sFlt-1 triggers the 'vicious circle' between endothelial dysfunction and oxidative stress and aggravates the apoptosis of preeclamptic trophoblasts Ziyan Jiang First Affiliated Hospital of Nanjing Medical University, China
9	Arrhythmias	Impact of frequent premature ventricular complexes on pregnancy outcomes Merav Dvir Orgad St. Paul's Hospital, Canada	9	Hypertension	The prophylactics of endothelial dysfunction in pregnant women with hypertensive disorders and coexisting pathology Iuliia Davydova National Academy of Medical Sciences of Ukraine, Ukraine
10	PPCM	The impact of pre-eclampsia on myocardial recovery in women with peripartum cardiomyopathy Kathryn Lindley Washington University in Saint Louis, USA	10	Hypertension	The cost-effectiveness of first trimester screening and early preventative use of aspirin in women at high risk of early pre-eclampsia Dayne Ortved University of Calgary, Canada
11	PPCM	The role of cardiac MRI in the evaluation of acute peripartum heart failure. Rafael Kuperstein Sheba Medical Center, Israel	11	Labour and delivery	Factors contributing to the increase blood loss at delivery in women with cardiac disease Matthew Cauldwell Chelsea and Westminster Hospital, UK
12	Cardiomyopathy	Maternal and neonatal outcome of pregnant women with cardiomyopathy Yzabel Moreira University of Sao Paulo, Brazil	12	Congenital Heart Disease	Maternal and fetal outcomes in cyanotic congenital heart disease: A multicentric study Of 55 pregnancies. Magalie Ladouceur Hôpital Européen Georges Pompidou, France

13	PPCM	<p>Peripartum cardiomyopathy characteristics and outcomes in Canadian Aboriginal and non-Aboriginal women</p> <p>Shuangbo Liu University of Manitoba, Canada</p>	13	<p>Congenital Heart Disease</p>	<p>Uteroplacental Doppler flow and pregnancy outcome in women with Tetralogy of Fallot.</p> <p>Monique De Laat University Academic Medical Center, The Netherlands</p>
14	PPCM	<p>Peripartum cardiomyopathy in Denmark 2004-2015 - a nationwide registry-based cohort study.</p> <p>Anne Ersbøll Copenhagen University Hospital Rigshospitalet, Denmark</p>	14	<p>Congenital Heart Disease</p>	<p>Maternal Exposure to Particulate Air Pollution and Risk of Congenital Heart Defects</p> <p>Bin Zhang Wuhan Women and Children Health Care Center, China</p>
			15	<p>Congenital Heart Disease</p>	<p>Idiopathic dilatation of the pulmonary artery in pregnancy - Case Report</p> <p>Katja Prokselj University Medical Centre Ljubljana, Slovenia</p>

Monday, February 29th 2016

All Day Registration			
08:00-09:45	Aorta and Great Vessels Chairs: Jorg Stein, Jolien Roos-Hesselink	8:00-09:35	Arrhythmias Chairs: Danna Spears, Paul Gibson
08:00-08:15	Pregnancy in the patient with Marfan syndrome, screening, follow up and treatment. Michal Simchen Sheba Medical Center, Israel	8:00-8:15	Approach to the pregnant patient with inherited channelopathies Danna Spears Toronto General Hospital, Canada
08:15-08:30	Challenges in managing pregnancy in Marfan syndrome- it is not only the aorta to be dealt with Jorg Stein Medical University Innsbruck, Austria	8:15-8:30	Syncope in pregnancy: An approach to diagnosis and treatment for the generalist and obstetrician Paul Gibson University of Calgary, Canada
08:30-08:45	Risk of pregnancy in patients with aortic coarctation. Sabrina Phillips University of Oklahoma Health Sciences Center USA	8:30-8:40	Fluoroless AVNRT Ablation for the pregnant female (abstract) Kevin Manocha Mayo Clinic, USA
08:45-8:55	Case: Aortic dissection in pregnancy managed with endovascular repair Thomas Stewart Mayo Clinic, Rochester, USA	8:40-8:50	Maternal and fetal outcomes in women with arrhythmias (abstract) Najat Al-Sherri Washington University, USA
08:55-09:10	The risk of aortic dissection in pregnant patients with Turner syndrome. Sorel Goland Kaplan Medical Centre, Israel	8:50-9:00	Intrapartum arrhythmia in women with a prior history of tachyarrhythmia: a rare occurrence (abstract) Anna Roberts St Mary's Hospital, Central Manchester University Hospitals, UK
09:10-09:25	Pregnancy in the patient with a non Marfan aortopathy Rachel Wald University Health Network, Canada	9:00-9:15	Ventricular arrhythmias in pregnancy -Approach to diagnosis-risk stratification and management Danna Spears Toronto General Hospital, Canada
9:25-9:35	Case: Pregnancy in a patient with Takayasu's arteritis Alan John University of southern California, Los Angeles.	9:15-9:25	Ventricular tachyarrhythmia during pregnancy in women with heart disease: data from the ROPAC Registry (abstract) Ebru Ertekin Erasmus University Medical Center, Netherlands
9:35-9:45	Case: Ruptured sinus of valsalva: a rare cause of acute heart failure in pregnancy Claudia Freire Federal University of Minas Gerais, Brazil	9:25-9:35	Unexplained asystolic pauses in pregnancy (abstract) Suzanne VF Wallace Nottingham University Hospitals, UK

09:45-10:05	Coffee Break, Poster Viewing and Exhibition Visit		
10:05-11:55	Management During Pregnancy: Labor and Delivery Chairs: Mathew Sermer, Katherine Arendt	10:05-11:55	Coronary Artery Disease Chairs: Rachel Wald, Marla Mendelson
10:05-10:20	Induction of labor and delivery plan in pregnant women with heart disease. The conservative view Eli Gutterman Carmel Medical Center & Clalit Health Services, Israel	10:05-10:20	Risk of pregnancy in women with a history of ischemic heart disease. Marla Mendelson Northwestern Feinberg School of Medicine, USA
10:20-10:35	Passive second stage of labor - More harm than good? Carl Rose Mayo Clinic, Rochester, USA	10:20-10:35	Lipid disorders therapy in pregnancy Maciej Banach Medical University of Lodz, Poland
10:35-10:50	Management of the 2nd and 3rd stages of labour Mark Johnson Imperial College London, United Kingdom	10:35-10:50	Pregnancy in patients with a history spontaneous coronary artery dissection Marysia Tweet Mayo Clinic Rochester, USA
10:50-11:05	Recommendations for time of induction of labor in women with complex congenital heart disease Mary Canobbio University of California, Los Angeles	10:50-11:05	Diagnosis and management of congenital coronary lesions Rachel Wald University Health Network, Canada
11:05-11:15	Mode of delivery and pregnancy outcome in women with congenital heart disease (abstract) Joris Hrycyk Technical University of Munich, Germany	11:05-11:15	Coronary artery dissection: Analysis of 120 contemporary cases (abstract) Ofer Havakuk University of Southern California, USA
11:15-11:30	Obstetric anesthesia considerations in patients on antithrombotic therapy Katherine W Arendt Mayo Clinic, Rochester, USA	11:15-11:25	Case: NSTEMI or Stress Cardiomyopathy (Tako-Tsubo) 10 days after delivery Avraham Shotan Hillel Yaffe Medical Center, Israel
11:30-11:45	Timing and mode of delivery in the pregnant patient on anti coagulation. Mark Johnson Imperial College London, United Kingdom	11:25-11:40	New guidelines for ACLS for pregnancy Joan Briller University of Illinois, USA
11:45-11:55	Predictors of obstetric and offspring complications in women with heart disease: Data from the registry of pregnancy and cardiac disease (abstract) Iris van Hagen Erasmus MC, Netherlands	11:40-11:55	Pregnancy and acquired coronary artery disease Candice Silversides University of Toronto, Canada
11:55-13:30	Lunch break		

13:30-15:45	Pulmonary Hypertension, Pulmonary Emboli and Amniotic Fluid Emboli Chairs: Dianne Zwicke, Lori Blauwet	13:30-15:25	Cardiomyopathies & Heart Failure Chairs: Joan Briller, Sorel Goland
13:30-13:45	Pregnancy with shunt lesions and elevated pulmonary artery pressure Sabrina Phillips University of Oklahoma Health Sciences Center, USA	13:30-13:45	Hemodynamic changes with pregnancy—especially pre-eclampsia and ventricular function Joan Briller University of Illinois, USA
13:45-13:55	Pulmonary hypertension in pregnancy: How are we doing now? (2000-2015) (abstract) Marie-Louise Meng Columbia University Medical Center, USA	13:45-14:00	Management and outcome of pregnancy in non-peripartum dilated cardiomyopathy: Results from ROPAC Avraham Shotan Hillel Yaffe Medical Center, Israel
13:55-14:10	Obstetric anesthesia management for delivery in the severe pulmonary hypertensive patient Katherine W Arendt Mayo Clinic, Rochester, USA	14:00-14:15	Pregnancy and non-compaction: An update Radha Sarma Western University of Health Sciences, USA
14:10-14:25	ROPAC - Pulmonary hypertension Iris van Hagen Erasmus Medical Center, The Netherlands	14:15-14:30	Diastolic heart failure and pregnancy Joan Briller University of Illinois, USA
14:25-14:35	Pregnancy outcomes in Eisenmenger syndrome: a French multicentric cohort study. (Abstract) Magalie Ladouceur Hôpital Européen Georges Pompidou, France	14:30-14:45	Hypertrophic Cardiomyopathy and pregnancy: Potential complications Petronella G (Els) Pieper University Medical Center, The Netherlands
14:35-14:50	Amniotic fluid embolism: Pathophysiology and diagnostic criteria Miranda Klassen The Amniotic Fluid Foundation, USA	14:45-15:00	The outcome of pregnancy in women with chemotherapy induced cardiomyopathy. Jean-Bernard Durand The University of Texas, MD Anderson Cancer Center, USA
14:50-15:00	Case: Pulmonary artery hypertension presenting in a pregnant patient with a neck arteriovenous malformation Eleftheria Kalogera Mayo Clinic, USA	15:00-15:10	Case: Four's a crowd: Quadricuspid aortic valve masquerading as peripartum cardiomyopathy Chantal Elamm Univserity Hospitals of Cleveland, USA
15:00-15:15	Amniotic fluid embolism: Managing the Unexpected Miranda Klassen The Amniotic Fluid Foundation, USA	15:10-15:25	Peripartum Acute pulmonary congestion with LVEF 25% - LVAD/ECMO, ICD or medical approach Avraham Shotan Hillel Yaffe Medical Center, Israel
15:15-15:25	Case: Double thrombolysis in the early pregnancy can be safe Anna Kania Medical University of Lublin, Poland		

15:25-15:45	Contemporary approach to pulmonary hypertension in pregnancy Dianne Zwicke Aurora St. Luke's Medical Center, USA		
15:45-16:05	Coffee Break, Poster Viewing and Exhibition Visit		
16:05-18:05	Congenital Heart disease Chairs: Carole Warnes, Mary Canobbio		
16:05-16:20	Pregnancy in a patient with Fallot; what is the risk and how to manage? Mary Canobbio University of California, Los Angeles		
16:20-16:35	Role of the right ventricle in maternal and offspring outcome of pregnancy. Petronella G (Els) Pieper University Medical Center, The Netherlands		
16:35-16:45	Case: Anesthetic management of Fontan circulation during cesarean delivery Thomas Stewart Mayo Clinic, USA		
16:45-16:55	Fontan surgery and pregnancy: How to support from preconception to the future? (abstract) Tokuko Shinohara Tokyo Women's Medical University, Japan		
16:55-17:10	A new registry of pregnancy in patients after Fontan operation Petronella G (Els) Pieper University Medical Center, The Netherlands		
17:10-17:20	Pregnancy outcomes in women after an arterial switch operation for transposition of the great arteries (abstract) Chinami Horiuchi National Cerebral and Cardiovascular Center, Japan		
17:20-17:50	The management of complex CHD in pregnancy: Disease specific recommendations Carole Warnes Mayo Clinic, Rochester, USA		

Tuesday, March 1st 2016

8:00-8:40	Cardiovascular Medications Chairs: Claire McLintock, Petronella G (Els) Pieper
8:00-8:15	Impact of cardiac medications on pregnancy outcome - results from ROPAC Titia Ruys Erasmus Medical Center, The Netherlands
8:15-8:40	Cardiac drugs in pregnancy and lactation: Which one and which one not? Petronella G (Els) Pieper University Medical Center, The Netherlands
8:40-13:05	Peripartum Cardiomyopathy Chairs: Uri Elkayam, Dennis McNamara, Zoltan Arany
8:40-8:55	Medical treatment in peripartum cardiomyopathy - does it have to be life-long? Maria Schaufelberger University of Gothenburg, Sweden
8:55-9:10	Clinical characteristics of patients with PPCM in the US: Results of the prospective investigation of pregnancy associated cardiomyopathy (IPAC). Dennis McNamara University of Pittsburgh, USA
9:10-9:25	Increased arterial stiffness in peripartum cardiomyopathy Maria Schaufelberger University of Gothenburg, Sweden
9:25-9:40	Association between RV function in PPCM and LV recovery and clinical outcome. Lori Blauwet Mayo Clinic, Rochester, USA
9:40-9:50	Clinical predictors of cardiac recovery in PPCM. Uri Elkayam University of Southern California, USA
9:50-10:05	Commonalities and differences between dilated and peripartum cardiomyopathy: titin, fibrosis and myomesin (abstract) Ilse Bollen VU University Medical Center, Netherlands
10:05-10:20	Shared genetic etiology of peripartum and dilated cardiomyopathies Zoltan Arany University of Pennsylvania, USA
10:20-10:40	Coffee Break, Poster Viewing and Exhibition Visit
10:40-10:55	PPCM duration of treatment-A proposal James Fett

	<i>University of Pittsburgh Medical Center, USA</i>
10:55-11:10	BMI, ventricular remodeling and outcomes in PPCM Dennis M. McNamara <i>University of Pittsburgh Medical Center, USA</i>
11:10-11:20	Pregnancy outcomes in female heart transplant recipients with the initial diagnosis of peripartum cardiomyopathy (abstract) Lisa Coscia National Transplantation Pregnancy Registry (NTPR), USA
11:25-11:40	Angiogenic imbalance and residual myocardial injury in women post- peripartum cardiomyopathy and left ventricular function recovery Sorel Goland Kaplan Medical Centre, Israel
11:40-11:50	Outcomes in peripartum cardiomyopathy: insights from a Canadian multicenter retrospective study (Abstract) Maxime Tremblay-Gravel University of Montreal, Canada
11:50-12:05	The relationship between Preeclampsia and PPCM Zoltan Arany University of Pennsylvania, USA
12:05-12:15	Do patients with peripartum cardiomyopathy have more severe disease if they also have preeclampsia? (abstract) Natalia Brito-Rivera Washington University in Saint Louis, USA
12:15-12:25	Prolactin fragment values and effects of anti-prolactin therapy in patients with peripartum cardiomyopathy (abstract) Chizuko Kamiya National Cerebral and Cardiovascular Center, Japan
12:25-12:40	Breast feeding in a patient with PPCM. Does it impact recovery? Dennis M. McNamara University of Pittsburgh Medical Center, USA
12:40-12:55	The risk of subsequent pregnancy in women with a history of PPCM. Uri Elkayam University of Southern California, USA
12:55-13:00	Closing Remarks
